## Hydration helps EVERYTHING.

A short list from what we have experienced personally and heard directly from others when sharing The Water.  
Try the machine for 30-days, full refund if you are not satisfied.

- HYDRATION!!! Water is the main transport for EVERY bodily function.
- 65% of people are dehydrated.
- This machine is not just for drinking. It can eliminate the expense of many skin, hair, cleaning, laundry and household products – eliminating chemical exposure and consumption.

**Recommended challenge:** Drink half your weight (pounds) in water (ounces) every day; (Ex. If you weigh 200 pounds, drink 100 ounces of 8.5 – 10.0 pH water, escalating as you feel comfortable to do so). Drink more if you can.

THEN answer this...on your personal ailments:

- (1) Make a list at the start-date.
- (2) Grade them after a few days, a week, a month and so on.
- (3) What do you notice?
- (4) Please tell us. (*hyperlink to our 'Share dialogue entry box'*)

- How is your Arthritis & inflammation?
- How are you calcified and stiff regions?
- How are your scars, old injuries?
- Move it or lose it. You stretching any further? You trying? Make the effort and see what happens, as you drink LivingWater.
- How is your Acid reflux?
- How are your irritated bowels?
- How is your Vision?
- How is your Brain fog?
- ...the dementia you were told is setting in?
- How are the skin patches you've been spraying 5.5 pH water on?
- How is the diverticulitis your friend said he had again and "needed to go to the ER"? I made him drink LivingWater. He avoided the need for the ER.
- Many studies have shown HYDROGEN promotes healing (*link Water-Science*). We promote HYDROGEN for healing.
- How much quicker does illness fade? Drink LivingWater and tell us.
- How quickly can you recover from surgery, injury, tough work-outs? Link to Top Athletes' Testimonials. [*Link Test.*]
- How are your Blood levels when tested at the doctor?
- How are your energy levels? Find it hard to sit still?
- Think that helps your weight? Or mental well-being, to **WANT TO** move more?
- Did you know that Hydrogen is the #1 antioxidant? AND multiply more effective?
- One LivingWater drinker: Hip replacement that hurt for eight years, the pain went away within a few days of drinking – after eight years.
- Could blood sugar be more balanced when the cells are metabolizing more effectively; via hydration?
- Could Iron levels balance for those deficient and co-dependent on infusions (for eight years) just by consuming Living Water? My iron levels for all my years tested highest ever, day after an infusion - **artificially** at 137. I had been receiving infusions every 60 to 90 days for eight years because my iron levels would drop to zero – causing

no or low new blood cell production, low oxygen delivery. I was due for an infusion before I received my LivingWater machine. 10.5 days into drinking The Water, my blood was tested and my iron was 260. I avoided an infusion, scheduled two days later. The ONLY change ...drinking LivingWater. I will continue to test and follow up. Other health benefits have occurred as well.

- If cells are metabolizing better and burning things more efficiently, could this lower Cholesterol – effectively BURNING cholesterol as it was intended?
- If cells are metabolizing better and burning things more efficiently, could this lower Blood pressure – using small particle LivingWater? Reducing the struggle of the body to cleanse itself. Water is smoother, faster and easier to pump around. Better hydration throughout when there's less inflammation.
- Does raising the body and blood pH reduce the ability for disease to thrive in the human body?
- How is your energy and flexibility; after a day, two, six, thirty?
- Recommended by professional athletes of the top teams because it improves their performance. What do you think it can do for you?

Once you are drinking at least half your weight in ounces per day and detox is complete (a day or so), you may experience less urination. For 100 ounces of 'normal fluid' someone drinks, they eliminate 90 to 95 ounces – if it is a diuretic, more.

LivingWater creates approximately 10 ounces for elimination, for every 100 ounces consumed. Hydrogen-infused LivingWater burns differently. Fewer trips to the bathroom. Better nights' sleep.

Please let us know so we can share your stories and help everyone around us: Get better together.  
Chemical-free.
